

SIGNAL CABLE TS-PUR

Application

The signal cable TS-PUR is used for installing directly into fresh concrete as well as for surface applications or in cable channels or cable pipes.

Description

The TS-PUR is a shielded, 4 strand wire signal cable. Thanks to its design (Base cable with copper netting shield and PUR sheath) it is flexible and useful for construction sites.

Technical Data

Type	TS-PUR
Color	orange
Overall diameter	ø9 mm
Weight	120 g/m
Cable structure	Base cable, copper netting shield, PUR sheath
Flexes	4 x 0.75 mm ²
Flex isolation	PE
Flex isolation colors	white, black, red, green
Electrical protection	Copper netting shield
Mechanical protection	PUR sheath
